Subject: Re: Passaic, RM 10.9 and 17-mile

1. For RM 10.9, when did you say the pore water results would be submitted?

Unvalidated porewater data will be provided on Monday (4/15) with the Progress Report; validated data later in the week

Would it be possible for you to submit them with the Water Quality Management Plan draft/outline we discussed last week?

Hill will be providing the outline to us on Tuesday; we will need a day or so to review and then we can share it with you.

I have been expecting to receive the outline late this week/very early next week - is this still the plan, and would the timing work in relation to the pore water results?

2. For the 17-mile RI/FS, what is the status of your CSM? Is there something you could share with us in the near future?

We are finalizing a draft for CPG review; realistically it will be no earlier than June

Hi Rob,

I have 2 questions/requests:

2. For the 17-mile RI/FS, what is the status of your CSM? Is there something you could share with us in the near future?

Thanks,

Stephanie
